

Nagios XI - ERROR: PostgreSQL not running - exiting

Article Number: 154 | Rating: Unrated | Last Updated: Mon, Feb 22, 2016 at 7:39 PM

Problem Description

This anomaly will rarely occur during a VM set up of Nagios XI.

The following is an example of what it may look like:

```
cp: cannot create regular file `/usr/local/nagiosxi/scripts':  
  Read-only file system  
cp: cannot create regular file `/usr/local/nagiosxi/scripts':  
  Read-only file system  
chown: cannot access `/usr/local/nagiosxi/scripts/reset_config_perms': No such file or directory  
chown: cannot access `/usr/local/nagiosxi/scripts/reset_config_perms.sh': No such file or directory  
chmod: cannot access `/usr/local/nagiosxi/scripts/reset_config_perms': No such file or directory  
chmod: cannot access `/usr/local/nagiosxi/scripts/reset_config_perms.sh': No such file or directory  
/tmp/nagiosxi  
Checking PostgreSQL status...  
ERROR: PostgreSQL not running - exiting.  
ERROR: Nagios XI database was not setup properly - exiting.
```

You may try restarting the server but in some cases will have to start the Nagios XI install from the beginning.

Final Thoughts
