

Nagios XI - Warning: Duplicate definition found for contact 'xi_default_contact'

Article Number: 162 | Rating: Unrated | Last Updated: Mon, Feb 22, 2016 at 7:32 PM

Problem Description

When you try to apply configuration, you see an error, similar to this one:

```
Warning: Duplicate definition found for contact 'xi_default_contact'  
(config file '/usr/local/nagios/etc/contacts.cfg', starting on line 79)  
Error: Could not add object property in file '/usr/local/nagios/etc/contacts.cfg' on line 80.  
Error processing object config files!
```

This usually happens if you import the "static" directory config files in Nagios XI.

Resolving The Problem

You can resolve this by running the following command and then applying configuration:

Type:

```
curl -s http://assets.nagios.com/downloads/nagiosxi/scripts/fix_static_import | mysql -pnagiosxi nagiosql
```

Final Thoughts
