

# Nagios XI - Configuring Inbound Checks

Article Number: 188 | Rating: 1/5 from 2 votes | Last Updated: Thu, Feb 18, 2016 at 1:06 AM

## Configuring Inbound Checks

This document describes how to configure inbound checks in Nagios XI. Inbound checks are used in federated and distributed monitoring environments, as well as environments where the monitoring server receives passive check results from external applications and services.
