

Nagios XI - Configuring Outbound Checks

Article Number: 189 | Rating: 1/5 from 1 votes | Last Updated: Thu, Feb 18, 2016 at 1:05 AM

Configuring Outbound Checks

This document describes how to configure outbound checks in Nagios XI. Outbound checks are used in federated and distributed monitoring environments, as well as environments where the monitoring server sends passive check results to external applications.
