

# Nagios XI - How To Use The Actions Component

Article Number: 204 | Rating: 5/5 from 1 votes | Last Updated: Thu, Feb 18, 2016 at 12:50 AM

## How To Use The Actions Component

This document describes how to configure the Actions Component within Nagios XI. This includes the custom URLs, linux shell/script, macro, and php code evaluation portions of the component. The Actions Component allows a Nagios XI administrator to create customized links to do specific tasks accessible to the user from the Host or Service Status Detail pages.
