

Nagios XI - Importing Config Files From Nagios Core into Nagios XI

Article Number: 206 | Rating: Unrated | Last Updated: Wed, Feb 17, 2016 at 7:24 PM

Importing Config Files From Nagios Core into Nagios XI

This document describes how to migrate and import Nagios Core configuration files into Nagios® XI™. Importing configuration files is only required in instances where administrators wish to import configurations from existing Nagios Core installations. Importing configuration files automates setting up your existing Hosts, Services, Hostgroups, Servicegroups, and Host/Service Templates in your Nagios XI installation.
