

Nagios XI - Integrating Mod-Gearman With Nagios XI

Article Number: 225 | Rating: 1/5 from 1 votes | Last Updated: Wed, Feb 17, 2016 at 7:28 PM

Integrating Mod-Gearman With Nagios XI

The purpose of this document is to provide a guide to integrating Mod_Gearman with Nagios XI to introduce distributed monitoring in your environment. Mod_Gearman and its worker processes intercept checks made by Nagios and run them externally, process them, and send them back to the Nagios server. In this way Mod_Gearman has been shown to greatly reduce the load taken on by the Nagios server while still keeping its speed and efficiency.
