

Nagios XI - Monitoring Linux Using SNMP

Article Number: 249 | Rating: 1/5 from 2 votes | Last Updated: Wed, Jul 19, 2017 at 2:32 AM

Monitoring Linux Using SNMP

This document describes how to monitor Linux machines with Nagios XI using SNMP. SNMP is an “agentless” method of monitoring network devices and servers, and is often preferable to installing dedicated agents on target machines.

[Documentation - Monitoring Linux Using SNMP](#)

This Nagios video guide will demonstrate how to monitor a Linux Machine using the Linux SNMP Wizard in Nagios XI.

Final Thoughts
