

# Nagios XI - Using The Config Import Prep Tool

Article Number: 285 | Rating: Unrated | Last Updated: Wed, Feb 17, 2016 at 7:38 PM

## Using The Config Import Prep Tool

This document describes how to use the Nagios® XI™ configuration file import prep tool to prepare an installation for migration from Nagios Core to Nagios XI. The prep tool is used to pre-process native Nagios Core configuration files into a format that is easily managed in the Nagios XI web interface.
