

Nagios XI - Nagios Agents

Article Number: 46 | Rating: 1/5 from 1 votes | Last Updated: Wed, Feb 10, 2016 at 7:43 PM

Overview

Agents are programs that help aid Nagios with monitoring. Most often they are used to get information from remote machines or devices.

Agents

There are several agents for Nagios, generally the agents work with Nagios Core and Nagios XI but it is the ease of install and use that differentiates Nagios XI from Nagios Core. Some agents are provided by and supported by Nagios, and some are from third parties.

Here is a list of some popular agents with links more more information.

[NCPA](#) - Nagios Cross Platform Agent

[NRPE](#) - Nagios Remote Plugin Executor

[NSCA](#) - Nagios Service Check Acceptor

There are many more available in the [Nagios Exchange under Addons](#).
