

# Nagios XI - MK Livestatus Problems With Mod-Gearman

Article Number: 477 | Rating: 1/5 from 1 votes | Last Updated: Thu, Feb 25, 2016 at 6:28 PM

## Problem Description

---

It has been observed that when you use the combination of **Nagios Core 4 + Mod-Gearman + MK Livestatus**, nagios can segfault on passive check results.

The issue is with **MK Livestatus** used in this combination.

The following combinations are reported to work fine:

- Nagios Core 4 + Mod-Gearman
- Nagios Core 4 + MK Livestatus

## Additional Information

---

This has been discussed in GitHub at the following link:

[https://github.com/sni/mod\\_gearman/issues/85](https://github.com/sni/mod_gearman/issues/85)

## Final Thoughts

---
