

Nagios XI - Configuring Downtime

Article Number: 544 | Rating: 3/5 from 2 votes | Last Updated: Mon, Feb 11, 2019 at 7:31 PM

Overview

The purpose of this document is to show how you can schedule downtime for a service, host, hostgroup or servicegroup within Nagios XI. Scheduling downtime is an effective way to prevent unnecessary or unwanted notifications from being received during a period of expected service interruption.
