

Nagios Fusion - Changing Default Passwords

Article Number: 632 | Rating: Unrated | Last Updated: Tue, Jul 18, 2017 at 5:17 PM

Changing Default Passwords In Nagios Fusion

The purpose of this document is to provide a guide on changing the default passwords for an existing Nagios Fusion installation to ensure a safe and secure monitoring environment. This includes changing the passwords for the Linux root user and the user accounts the Nagios Fusion software uses to access the MySQL/MariaDB databases.
